

Dental Radiology Course Work I/II by H.Nishiyama

●basic principles of intraoral radiography

[Exercises] Submission deadline: Until the end of May

---

---

Using the textbook and other materials (available in the Conference Room on the 8th floor of Building A if you do not have them on hand), research the questions in the prelecture test and write a one- to two-page A4 report that clearly explains why you chose ○ (or ×).

Please contact Nishiyama if you wish to use the radiographic equipment or simulated equipment for intraoral X-ray practice.

Reports are due within one week (before the start of the next exercise), but only for the first time, by the end of May.

After submitting your report, you will receive an email with a password to start the next exercise. Once you receive the password, please submit your report within one week. If you shorten the time to submit your report, you can make up for the delay in completing the course.
